

Healthcare & Lifestyle

Modular administration and cost
recovery system for hospitals,
lifestyle villages and
care facilities

Convenience

Comfort

Cost recovery

For Patients & Guests

Turn a stay in your care facility into a more comfortable experience by offering a few little luxuries to your patients and guests.

In-room touchscreens for easy purchasing

Order paid services such as TV, internet, meals, gift store products, cafeteria snacks and more. Funds can be transferred online, directly from bank accounts, debit or credit cards, or at an on-site kiosk.

Customisable permissions

Special diets and temporary restrictions can easily be applied with configurable options for individuals.

Choose from prepaid accounts or end-of-stay invoicing

For Staff

Time is short for healthcare professionals. Make the little things easier and faster with ID card integration to track and manage meals, printing and restricted area access.

Use ID card to purchase food and goods

Hospitals can collect revenue for meals, snacks and other services with easy to charge card technology.

Meal allowances automatically loaded onto staff card accounts

Administrators can budget accurately for staff meal allowances when doctors are given an allowance that is tracked with a card. Third party food service companies are able to charge the hospital the actual price of a doctor's meal or deduct a subsidy.

Tracking use of facilities and resources

Cut operational costs by reducing waste and misuse. With accurate tracking and allocation of costs, user responsibility increase.

How can we make your life easier?

Print Management

Hospitals can gain real savings by cutting the page count and misuse of printers, copiers and scanners. With real-time reporting, staff can see which printers are being used and by whom. Print policies can then be enforced with our print management software.

Secure, fast and reliable software charges accurately and securely to departmental budgets. From multi-user MFDs to single-user printers, Monitor's configurable options allows you tighter control, more security and complete cost recovery.

A Modular Solution

Monitor's flexibility and modular solutions means you can manage and recover costs for new or existing services for staff, guests and patients, all with the swipe of an ID card.

Parking & building access

Monitor solutions allow specific permissions for both individual and group level access to restricted areas around your facility. With the same swipe card staff can access specified parking areas or take advantage of bookable parking spaces.

Catering and cafes

On site canteens, cafes and shops, even third-party operators can work comfortably inside Monitor's solution, allowing you to have control over spending, quotas and allowances from individual to group-level. All users need to do is swipe their card and Monitor manages it all.

Security

Monitor's solutions are all backgrounded by secure tracking and monitoring software. With tracking through facility usage and people counting technology, you'll know exactly who comes through your doors.

Laundry & Vending

Self-service facilities allow staff, patients and guests comfort and self-reliance 24 hours a day, with cards linked to user or guest accounts.
