Transaction Management

Online Ordering

A complete advanced ordering and payment system designed for educational, institutional and corporate environments

Take control

Monitor Online Ordering is an intuitive web-based application that allows you to order and pay for almost anything in advance.

A complete solution for school, institutional and corporate environments, items from multiple shops – canteen meals, uniforms, equipment, trips and events – can all be selected and paid for from anywhere. Order your regular coffee, have equipment delivered right to your office, ensure your kids' school lunches are healthy and hassle-free, all from your phone.

Whatever life throws at you, Monitor lets you organise your day.

➤ Simple to use

➤ Self-service web application available on any device

➤ Pick-up and delivery options

➤ Create custom 'packages' from your choices

➤ Parents can manage multiple children, and mirror orders

➤ Dietary options and preferences all recorded

➤ Pay using bank-to-bank, credit/debit card, pre-paid Monitor account or daily/monthly quota

➤ Help and support when you need it

➤ Buy everything in one simple check-out

➤ Single Sign-On to all systems

Let Monitor do the heavy lifting

Customisable and configured how you want it, Monitor's Online Ordering fits seamlessly into your existing corporate identity. Monitor is used by hundreds of educational environments, libraries, businesses, and service providers every day.

With impressive flexibility and a commitment to continuous improvement, Monitor will work with you to create a custom solution. Offer special meal deals through your canteen, bring on a third-party uniform provider, cut out the paperwork when your staff need new stationery.

Your people deserve the easy, all-in-one solution that Monitor provides.

➤ Simple to use

➤ Nested shop groups, categories and items to fit any type of shop

➤ Customisable options, add-ons and questions so users can select exactly what they want

➤ Pick-up and delivery modules available

➤ Add limitations and restrictions on products and services, e.g. specify different items available on particular times and days

➤ Short-term items available, e.g. fundraising, donations, field trips, special events

➤ Seamless integration with Monitor iPOS for centralised stock management, including backordering.

➤ SupervisorNet's powerful reporting capabilities allow you to view and export data in CSV and PDF formats

➤ Customisable user interface, from product pictures and videos to CSS style sheets and URL redirecting

➤ Use quotas, credit or user-pays, or a combination of all three

➤ Manage multiple shops, including third-party providers, through one interface

➤ Ensure the money goes where it needs to go with the capability to manage multiple bank accounts across all shops, including third-party providers

➤ Able to grow with your business

Monitor Online Ordering is a complete transaction management solution, customised to work within your business. We'll take care of the busyness, so you can focus on the business.
