

Online Ordering For Libraries

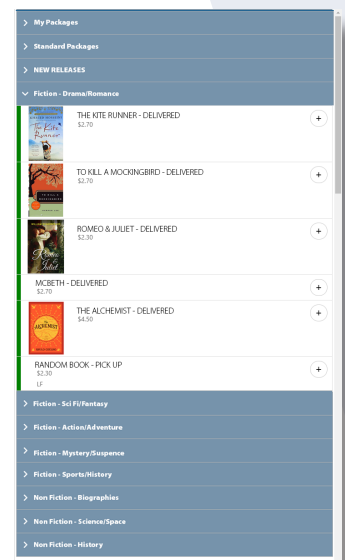

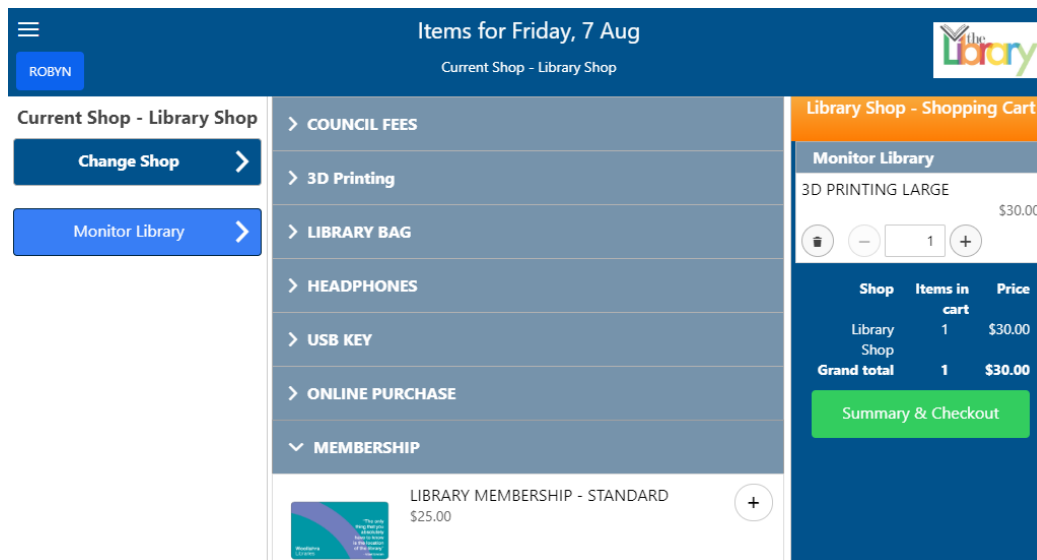

A complete advanced ordering
and payment system

Take control

Monitor Online Ordering is an intuitive web-based application that allows you to order and pay for almost anything in advance.

A complete solution for libraries - users can make donations, buy/book event tickets, purchase items e.g headphones/USB/bags, order replacement cards and pay other fees, all can be selected and paid for from anywhere. Book in researcher time or English lessons, order your books in advance and purchase a ticket to the next session of Mums & Bubs - all from their device.

- Single Sign-On to all systems

Let Monitor do the heavy lifting

Customisable and configured how you want it, Monitor's Online Ordering fits seamlessly into your existing LMS. Monitor is used by hundreds of educational environments, libraries, businesses, and service providers every day.

With impressive flexibility and a commitment to continuous improvement, Monitor will work with you to create a custom solution. Offer special group deals or discounts to different user groups, bring on a third-party cafe provider, cut out the paperwork when your users need a replacement library card.

Your people
deserve the
easy, all-in-one
solution that Monitor
provides.

- Simple to use
- Nested shop groups, categories and items to fit any type of shop or event
- Customisable options, add-ons and questions so users can select exactly what they want.
- Pick-up and delivery modules available
- Add limitations and restrictions on products and services, e.g. specify different items available on particular times and days
- Short-term items available, e.g. fund-raising, donations, field trips, special events
- Seamless integration with all major LMS systems
- SupervisorNet's powerful reporting capabilities allow you to view and export data in CSV and PDF formats
- Customisable user interface, from product pictures and videos to CSS style sheets and URL redirecting
- Use quotas, credit or user-pays, or a combination of all three
- Manage multiple shops, including third-party providers, through one interface
- Ensure the money goes where it needs to go with the capability to manage multiple bank accounts across all shops, including third-party providers
- Able to grow with your community

Monitor Online Ordering is a complete transaction management solution, customised to work within your community. We'll take care of the busyness, so you can focus on the people walking through your doors.
