

People Counting

Patron tracking and
powerful reporting

Track the Entry, Exit and Movement of People

Ideal for

Libraries

Corporate

Retail

Government

Sports Facilities

Education

Hospitality

Monitor People Counter provides organisations with the ability to accurately count the foot traffic of people using state of the art heat detection hardware including direction data that senses both entry and exit.

Use your data to build your business

The applications of the data collected are endless. Imagine knowing which corners of your business or facility are seldom visited, knowing exactly where to place an eye-catching display, and prediction minute-by-minute where and when people will be moving around in your space.

Reporting in real time in real locations

The comprehensive reporting suite provides web based charts and tabular data including real time trending. Monitor People Counter is an ideal solution for retail organisations such as clothing stores to public access organisations such as public libraries. With 3G wireless compliance for monitoring remote locations, Monitor People Counter is the ideal solution for taking stock of foot traffic on your site.

Detects people traffic and direction using sophisticated thermal imaging technology

Comprehensive reporting suite to monitor patron activity

Suitable for both retail and public accessed environments

Fully hosted or on site implementation options

3G wireless compliance for monitoring remote locations

Accurate recognition of foot traffic using heat detection that includes directional sensors

A comprehensive suite of web reports to track foot traffic including Sales Conversion reports for retail and Services

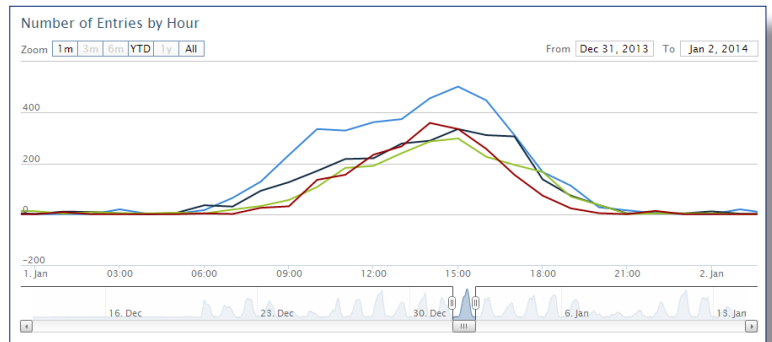

Utilisation reports for public access sites

3G wireless compliance for monitoring of remote locations

Ability to report on cleaning and security staff activity per location

Automated reports and exports delivered via email

Real time trending reports
