Modular Educational
Transaction Management

Your New School Management Tool

Join future-facing schools around the globe using Monitor every day to track transactions, administrate, and automate. Give students, parents and teachers the power to manage themselves, all with minimal input from admin staff.

Streamline the strands tangling up your day-to-day transactions. Background the business side of schools and elevate education and self-management with Monitor.

Increase ID Card functionality

Add functionality to existing ID and access cards to manage resources and raise revenue without adding to staff time and operating costs.

By linking a web-based account to a card or other identifier, students and their parents can manage payments for everything – uniforms, stationery, printing, field trips, fees – allowing students to use ID cards as authorisation. No need for cash.

Staff members use their access cards to allocate costs to departmental budgets, giving the school the true cost of printing and copying.

Considered a Cashfree Campus?

School students can pay for all expenses with their ID card, eliminating cash hassles for parents, administrators and teachers.

Parents allow access to funds and monitor spending

Free up office staff and teachers from collecting money

Capture all document costs and charge to department/project

Track student attendance and building or parking access

Cut paper and toner waste, saving money for teaching

Rationalise equipment by enabling staff or students to release their jobs at any printer with a card and/or PIN.

Easy for Parents, Easy for You

Monitor Online Ordering is a hub for all commerce and transactions within your school, manage everything from day-to-day spending to one-off fundraising.

Parents manage spending and stay informed about what's happening in the school community. Accounts can be accessed from anywhere with an internet connection. School lunches can be organised and paid for in advance, incorporating any special dietary requirements. Fees and other school costs are easily viewed and managed, eliminating those night-before requests for money, or the possibility of lost cash.

With tracking and reports automatically generated, Monitor streamlines the business side of running your school. Track everything from printing costs to PC usage. Manage attendance in real-time. Process payments and fees without requiring students to visit the office.
